

STATEMENT OF QUALIFICATIONS

Indonesia's leading provider of environmental, social, and geomatics consulting services for 35 years

PT Hatfield Indonesia was established in Bogor, West Java in 1990. Celebrating 35 years of operations, PT Hatfield Indonesia has expanded to provide services in key sectors for clients across Indonesia.

At PT Hatfield Indonesia, we have built a well-earned reputation for managing large, complex, and multi-disciplinary projects across Indonesia and Southeast Asia. Our experts apply a collaborative, client-focused, and knowledge-sharing approach which benefits our clients and project partners.

We are recognized for our scientific and management expertise in environmental and social impact assessment (AMDAL, UKL-UPL, and ESHIA), environmental and social due diligence studies, forest management and forest carbon investments, biodiversity management, coastal and marine resources management, GIS and remote sensing, and development program management.

Our multi-disciplinary teams provide clients with high-quality services to address regulatory, monitoring, and management requirements in sectors including forestry, mining, renewable energy, infrastructure, oil and gas, agriculture, and marine fisheries and aquaculture.
